

## **M42 junction 3 improvement scheme: Traffic Management Bulletin**

**Week Commencing 2 September 2019 and 9 September 2019**

Welcome to the traffic management bulletin for the M42 junction 3 improvement scheme. We will be sending this bulletin each week to let you know of planned closures of the slip roads of the junction or the A435 north and south of the junction. Whenever we have a closure we will provide a signed diversion route and I will send diversion maps with this bulletin.

To complete this work safely, we have the following traffic management in place throughout:

- 24/7 Single lane running on all approaches to the junction
- 24/7 Single lane running on the roundabout itself
- 50mph speed limit in place on the M42
- 30mph speed limit in place on slip roads

When the north or south side of the roundabout is closed there will be no access to go all around the junction. The diversion will be in place if you're looking to travel around the roundabout.

We're sorry for any disruption; please plan and allow extra time for your journey. For further information about the traffic management, please contact:
